WHICH BATTERY SYSTEM IS RIGHT FOR YOU?

**ASII**

COMPACT LITHIUM-ION BATTERY TOOLS.

STIHL AS System tools are small, easy-to-handle and make the actual work easier to accomplish with a bit more fun. Despite their compact size, the AS System battery tools are surprisingly powerful. The ingenious design of a small battery-powered tool makes everything run smoother, faster and easier.

**AIMI**

LITHIUM-ION BATTERY TOOLS FOR SMALL YARD JOBS.

STIHL 18 V lithium-ion battery tools will give you precisely the performance you need for keeping your favourite place looking its best. The lithium-ion batteries ensure fast, straightforward handling and provide the right amount of power, making small jobs on your property or in your backyard easy to complete.

**AKII**

LITHIUM-ION BATTERY TOOLS FOR DEMANDING HOMEOWNERS.

Your yard is your own personal project and the tools you use here need to meet high demands. They need plenty of power, while being easy-to-use. The STIHL lithium-ion battery tools with 36 V removable batteries offer you precisely this combination. With a flexible range of tools - all offering the usual STIHL quality - you will be ready for any challenge.

**APIII**

LITHIUM-ION BATTERY TOOLS FOR PROFESSIONAL APPLICATIONS.

Maximum power and battery life combined with outstanding performance and durability are essential for pros and perfect for noise-sensitive situations. STIHL offers a wide selection of products for professional use in the AP System lithium-ion battery tool range.

WHY BUY STIHL BATTERY TOOLS

**REAL POWER**

All STIHL battery tools are driven by powerful lithium-ion cells built to our strict standards. STIHL's world class engineering combines these cells with proprietary intelligence to maximize power across our wide range of tools.

**TRUE PERFORMANCE**

STIHL's Battery Management System (BMS) ensures ultimate performance is delivered based on your task. Cells are constantly monitored to ensure amperage and voltage are managed to maintain peak watts. Logic is communicated between a battery and the tool it is powering, allowing a tailored release of energy to get the job done.

**ULTIMATE DURABILITY**

STIHL batteries are engineered with safety and durability in mind. Our engineering includes technology to protect from damage due to deep discharging and/or over-heating that could be caused during operation or charging. An investment in a STIHL battery system will provide years of reliability, and our dedication to providing maintenance and repair parts ensures a minimal impact to the environment.

**VOLTS ONLY TELL HALF THE STORY**

STIHL lithium-ion batteries feature advanced construction and innovative engineering to maximize runtime (watt-hours). Simply put, more watt hours mean longer runtimes, allowing you to finish more work on a single charge.
